

iPad Camera as AT

Objective:
to establish the
usefulness of the
camera for
students who
receive special ed
services

You can find the slides on my website

The screenshot shows a mobile browser interface for the website 'speechhighway.com'. The page title is 'Speech Highway' and the author is 'Denise Szymczak MA, CCC/SLP'. The navigation menu includes 'Home', 'Procedural Codes', and 'Trainings'. The 'Trainings' section lists several articles:

- Ipad Basics: Subskills, Games and Productivity**
June, 2013
- Ipad Camera as Assistive Technology , TCEA 2014**
- Productivity Apps for Special Education, TCEA 2014**
- Student -App Match Rubric**
TCEA, 2014

Dislike the trend of framing complicated diagrams or statistics as "scary". Let's stop dumbing down our profession.

Pictures are powerful tools for people who have difficulties with communication or memory.

On the iPad pictures are relatively easy to take, retrieve, and use for a range of functions.

The big iPad bonus is that everything you do onscreen you can save as a picture.

How to take a
picture:

(see special story)

How to use a picture:
Student photos as text
message or email

Make sure
important
contacts are
easily recognizable
in the address
book.

Model it,
do it as a group,
make a social
story.

Let
people
know in
advance if
they might get
one.

Let's
practice!

Use your phone or tablet to take a picture and send it to someone. When you're addressing your message, see if you can edit your address book to make it easier to find them.

Student pictures as journal or scrapbook

Express personality & preferences

Recall experiences and sequences

Collect pictures from online exploration

Hints

Model & explain planning and editing processes, so students have as many choices as possible

Help students do their own voice overs with cues, scripts and practicing

Samples, using Special Stories App:

Ike Anduestuff

Going to Meet the
Longhorns

Power Rangers

Student photos on aug com devices

Student photos: etiquette and editing

When is it
ok to take
pictures

When
should you
never take a
picture

Practice
asking
people if it's
ok

How many
can you take

Which ones
will you keep

Teacher pictures-

Email

Projectors

Some Modalities

Mobile devices,
shared or
dedicated

iBooks app

Keynote app

Teacher pictures: planned activities

Agendas/schedules

If/ then

Activity sequences

Teacher pictures: social stories

Wanna

Teacher pictures: drills and homework

Use iBooks to install your own content on your students' devices. Many applications will open and save in iBooks and it's a free app.

Examples in keynote & special stories:

Export or
email....

Open in
ibooks

Let's look at Szymczak's stuff....

Teacher pictures as journal or scrapbook

Works on recall of routine and novel events

Gives students a way to see themselves

Manipulate information with or without language
